

La Mejorada Tiento 2015

La Mejorada Tiento is a test, a careful trial of what the terroir at La Mejorada is capable of, and so this wine is, every year, diverse and unexpected, produced from a selection of the best grapes in the whole vineyard, grapes that have reached exceptional maturity and that is fruit of the singular combination of variety, soil and climate.

It owes its qualities to the management of the terroir at La Mejorada. It is fruit of the identification and understanding of the soils, the behaviour of the vines growing from them when faced with changing climatology and the careful selection of the grapes produced by these vines, laboured with respect to the ecosystem and produced without chemical products for their cultivation.

It possesses an extraordinary capacity for evolution and over the years develops notable fineness and aromatic complexity.

Aging: 12 months in French oak barrels
